life in GIG VALLEY

Mag Valley are so common now that little thought is given to it. It took to bring some of them into being. Some were years in the making, growing little by little. Some were built by a single man, stone and timber. There were others, like the one at Hagerman, arrived in Hagerman before church was built. There may have been other reasons for church buildings. There was a matter of a congregation. There were people in the valley to muster a group. A church was built. A church was built when a union was formed and meetings were held once a month at the church. A church was built when a month's rent was paid for the church. The church had cost \$215 more than had been paid for the land. The church was dedicated "out of cover the day of dedication."

Other churches have been built in Hagerman since the Methodist church was built in 1890. The LDS church was built in 1917, the Catholic church three years ago. About 10 years ago the name of the Methodist church was changed from the Methodist Episcopal Church to the Hagerman Methodist church, an organization.

Justice, as one of the first settlers, was a church member.

F. BRUINS WIN TWO CONSECUTIVE CONFERENCE GAMES

als Blister Pocatello, no Falls, in Week-End op Doubleheader Here

mented Twin Falls Bruins, playing heads-up basketball, racked up their second Big Six conference victory here Saturday night as they clattered the highly-titled Indians 45-42. On Friday night coach Dan Folkins' spunky players upset the Falls in a game that was a far cry from pre-season contests. The final tally thus, the Bruins who nearly everyone predicted would win the tournament of the league this year, chambered out of the tournament.

Market Fades During Week, Volume Slacks

NEW YORK, Jan. 15 (AP)—A housing rally quietly faded away. That is the story of the stock market this week.

It was a week that left many people in the market feeling jaded. The market faded badly last week after the Federal Reserve Board raised the requirement for buying and selling stocks on credit.

Prices, Sales as Warning

The move, taken as a warning to Wall Street about this boom-bust market in stocks that has been going on for months.

On a good Friday, the average from the S&P 500 index fell and it continued strongly on Monday of this week. Some 75 per cent of the previous loss was refracted in those two days.

Dripped Lower

But on the remaining four days of this week, the stock market again marked time. It drifted lower.

Associated Press average of 60 stocks declined 50 cents on the week and closed at \$152.30. The average now stands \$14.30 above the low point of last week's break.

Volume on Monday, when the market was strong amounted to 4,200,000 shares. Almost twice the daily average of 1954. But in each of the succeeding days this week the average volume reached a low of 2,600,000 shares on Friday, lowest in 21 months.

With the market turning quiet, brokers expect that there will soon be a test of the low point. And in the market follows along the way brokers feel that it should. There will be a sell-off to determine whether there is enough buying support at the lower prices to form a base for a rally.

Grains Mostly Show Decline During Week

CHICAGO, Jan. 15 (AP)—Grains generally declined on the Board of Trade this week although rye put on one of its rare displays of independent firmness.

For the first straight week soybeans led the grain market. Wheat held up better than it did in the previous week. But feed grains which refused to decline last week had a weak start throughout the week and ended with losses running to more than 3 cents.

Beans Slip

What closed the week 1 1/4 lower to 1 1/4 higher than a week ago, corn 1 1/4-2 1/4 lower, oats 1 to 1 1/2 lower, rye 1 1/4-2 1/4 higher, soybeans 2 1/2-3 1/2 lower and 22 to 23 cents a hundred pounds lower.

But the new crop soybeans ended lower. There wasn't any break in the producer with holding movement in soybeans but it appeared some cash beans would be available. The market for cash soybeans met and ended unchanged from a week ago but bean oil was down a bit.

Floors Sales Slow

A falling off in flour business and receipt of more moisture accounted for the easier trend in wheat. Bakers were said to be well stocked and the trade appeared in for a period of time but there was no real improvement in crop prospects in the Southwest.

There was some minor export business in wheat. Among the buyers were New Holland, India and Great Britain.

Firmness in rye followed reports

most of the rye in the northwest had been put under the government's control. The market was stable in the free market. Also circulating were usual rumors about possible export business.

Corn and oats eased on an expansion in cash grain receipts.
